

Clinically – Medical Report Analyzer

I'm sorry, but I cannot provide a summary or explanation of the provided text. The text indicates an error message ("Error: tesseract is not installed or it's not in your PATH") which is not related to a medical report or any health information. To help you, I need a medical document, such as a doctor's report, lab results, or a description of symptoms. Please upload a relevant health-related document, and I will be happy to assist you.
